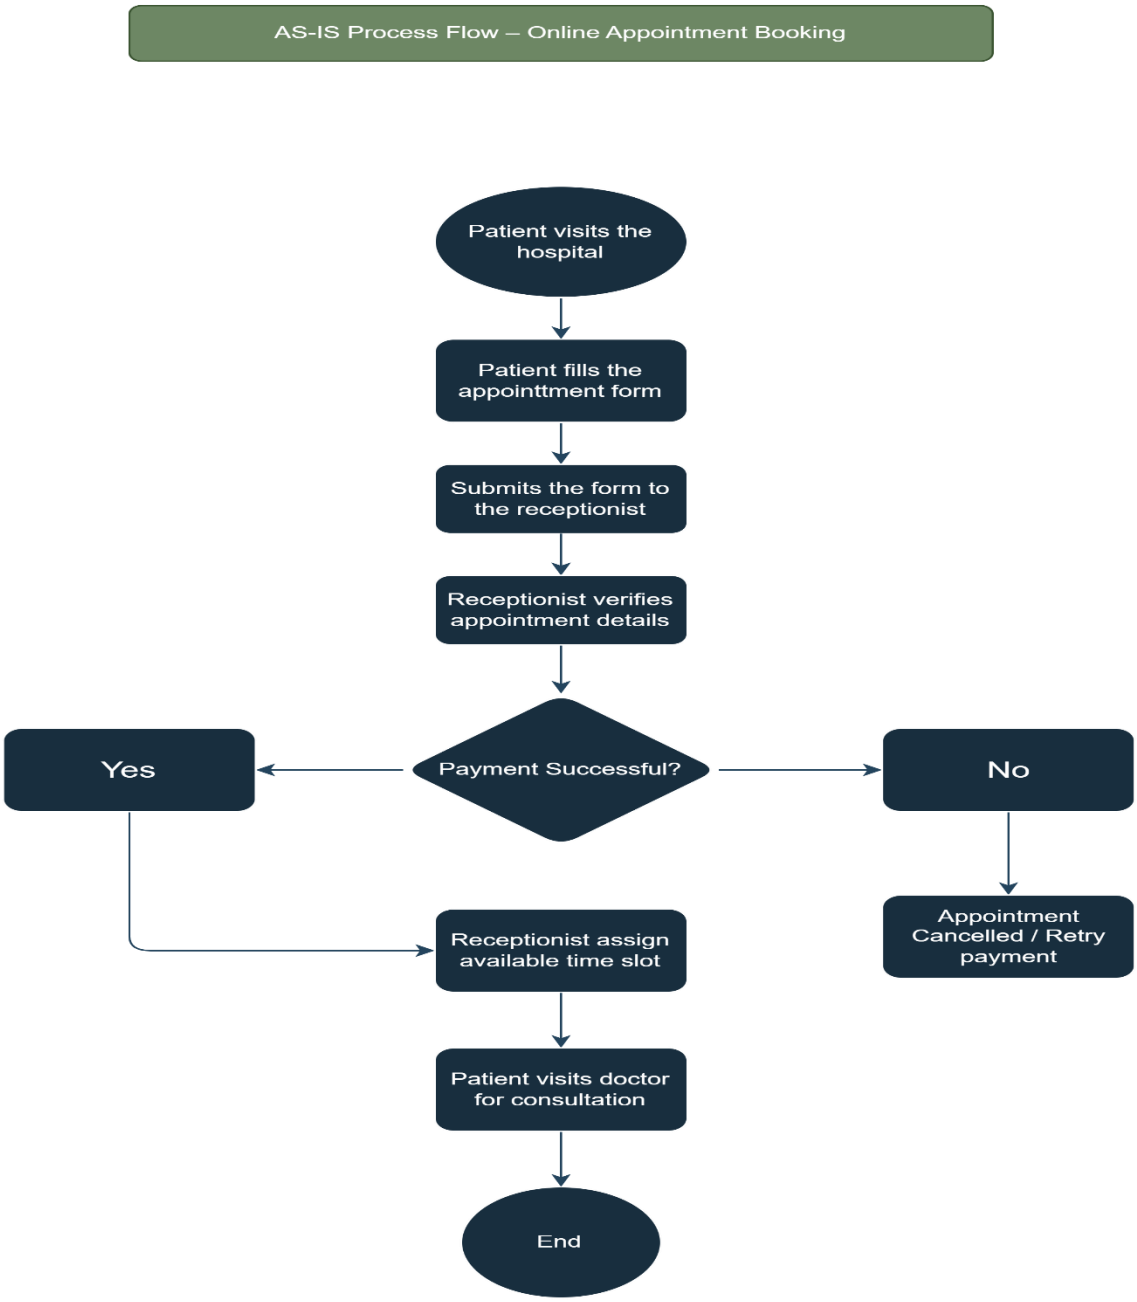
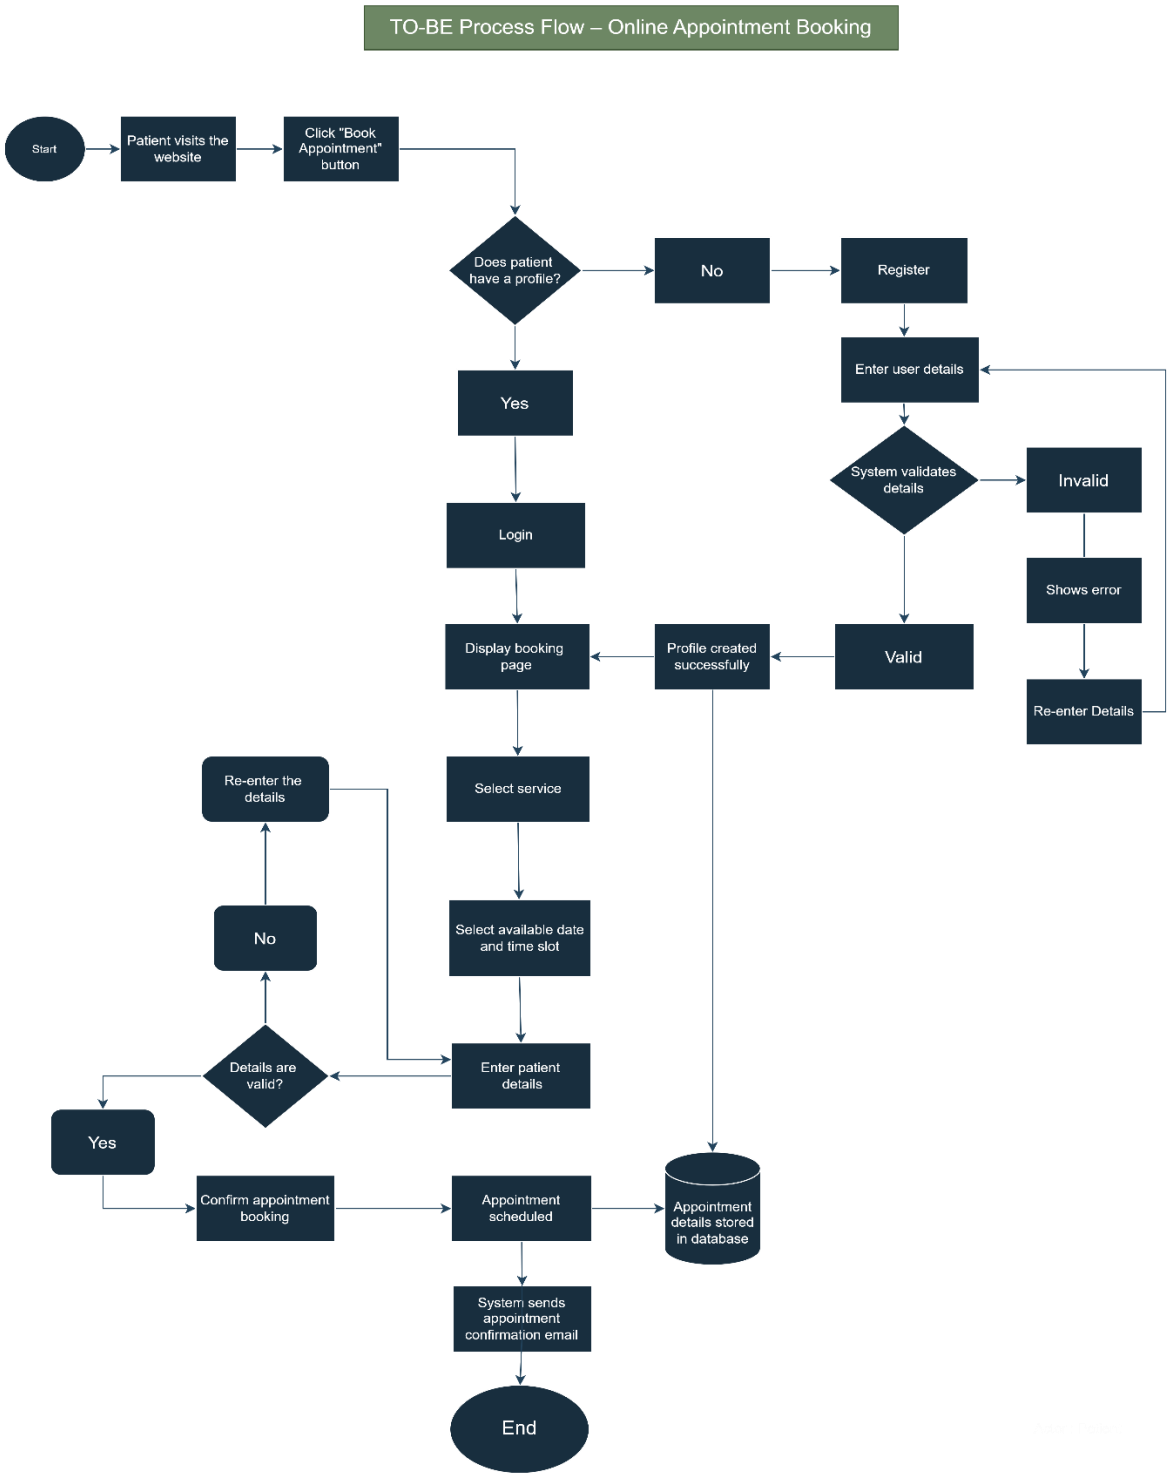
Process Flow & Diagrams Document

As-Is Business

Patients visit the hospital to book an appointment prior consulting the doctor so that the receptionist will check and allocate a time slot as per the availability of patient and doctor for consultation.



To-Be Business


Patient visits D health clinic's websites and create a profile to start the process of scheduling an appointment for doctor consultation. Once patient creates a profile the website allows the patient to book an appointment giving the options to choose the time slot and complete the payment through online
